About Me

Computer Engineering student with hands-on experience as a Webmaster.

Specializing in full-stack web development and workflow automation.

Passionate about building real-world systems — from hotel booking platforms to AI-powered chatbots.

Currently seeking a Junior Developer role to grow and contribute to production-level projects.

Education

University of The Thai Chamber of Commerce, Bachelor's Degree in Computer Engineering – Bangkok, Thailand June 2026 - present

Technical Phuket College, High Vocational Certificate in Information Technology – Phuket, Thailand May 2024 – Feb 2026

Experience

Webmaster, NEBULA VENTURES CO., LTD. – Phuket, Thailand May 2025 – Oct 2025

- Maintained and updated company websites using WordPress and Cloudways hosting
- Architected and developed an automated CRUD workflow syncing property listings from a Chinese affiliate company to a Phuket real estate WordPress site using n8n, REST API, and ACF — reducing manual data entry over a 5-month development cycle
- Managed server configuration and deployment on Cloudways cloud platform

Projects

Nai SomSage Dec 2025 – Feb 2026

Graduation project (Higher Vocational Certificate) LINE chatbot for personal finance management.

- Built conversational finance manager on LINE using n8n with session state management and multi-step user flows
- Integrated EasySlip API for automated payment slip verification and Google Sheets for income/expense tracking
- Implemented AI Agent with OpenRouter (LLM) and MCP Server tool-calling for intelligent financial analysis and summaries

GotJung Hotel Dec 2024 – Jan 2025

Back-End course project (Higher Vocational Certificate level) — online hotel booking system built with PHP, MySQL, and TailwindCSS.

- Built full-stack hotel booking system with dual-role access (Admin & Customer) using PHP, MySQL, and TailwindCSS
- Implemented complete CRUD operations for room/service management, booking management, and customer messaging system
- Designed Admin dashboard with booking overview and customer review moderation features

Skills

Languages: Python, Javascript, SQL, MySQL, HTML, CSS

Frameworks: Nuxt, Vue.js, TailwindCSS

Tools: Github, Docker, n8n, Node.js
